New Classifying of NDEs

Neal Grossman in my opinion did an excellent job reviewing Charles Tart's superb *The End of Materialism* (Book Review by Neal Grossman and David Shaffer Hafiz, *JSE* 24(1):109–124). Recent new data on NDEs may put them out of the class of “maybes.” Children who suffer NDEs do not see dead relations in heaven. They see their living playmates. This if true puts NDEs in the class of hallucinations.

Keep up the good work.

May your negentropy ever increase,
